

President/chairman's Report

Welcome to Manurewa AFC club rooms.

Tonight's 2018 A.G.M is the clubs 59th.

This year the results on the field haven't been as rewarding as we set out at the beginning of the year being with our senior side dropping to division two for the start of our 60th year. Again a work in progress. With Marty Rodwell again at the helm we will be looking for the turn around.

To the club sponsors, long time supporter the Wiri Licensing Trust, Rush Gordon Contracting, Lotto, Manurewa Local Board and Auckland City Council enables the club to continue as one of Manurewas largest based sports clubs.

To the control board team again thank you for your efforts, they don't go unnoticed when you see the turn out on the field. Special thanks to the Chairpersons and committee members senior, youth and junior sections. You have again succeeded in keeping soccer going for all age groups.

The clubs financial report shows again it's been run well and the result shown recognises the effort of a few. To improve and lighten workloads we need help. Come and have a go.

With Auckland City Council confirmation of the Memorial park upgrade this will also impact on the small team that work so hard. Don't be surprised if you are asked directly to assist.

The Club Managers role is working with the small whites having a team from Wiri Central school participating on a Saturday. Hoping to see an increase in juniors numbers from the schools that the club has been working with. As we work together to achieve the best outcome for the club.

With NZ football format changes with requirements to some leagues and the need for qualified coaches we may need to look at working with other groups in partnership to improve the delivery of the game.

I again look forward to working with the team. We have been together a while now but do need new members to offer a fresh outlook and ensuring the future of our club as we plan for a very successful 60th year.

Kerry Bevan
